October 11, 2017

Dear Families,

Dunkirk City School District wants to extend our sympathy to the people and communities affected by the Hurricanes in Puerto Rico. Our thoughts are with our families during this difficult time and we hope for a quick recovery from this disaster.

Puerto Rico Governor Ricardo Rossello warned that millions could flee Puerto Rico for the U.S. mainland due to the aftermath of Hurricane Maria.

The unknown number of newcomers will increase the need for space in classrooms, jobs and affordable housing. Dunkirk City School District is preparing to welcome the potential influx of new students from Puerto Rico that may be relocating to the Dunkirk community so they can be with family.

We are requesting that you help us prepare for newcomers. If you are aware that family members with school age children are relocating to Dunkirk please complete the chart below and return the paper to your child's school, or contact registration to speak with Jessica Vazquez at 366-9300 extension 2710 or Vanessa Escobar at 366-9300 extension 2040 to relay information. We appreciate as much information as possible, and understand that you may not be able to provide all of the information requested.

Parent Name	**Student Name**	**Student Age Or Birthdate**	**Student Grade**	**Anticipated relocation date to Dunkirk, NY**	**Telephone Number**
